

Product information: Wood Reviver

Description

Osmo Wood Reviver is a special liquid cleaner to refresh and clean exterior wood that has been subject to greying. The natural texture of processed wood will be restored and the fresh warm colour shade will be visible again. Osmo will preserve it.

Health and environment

Osmo Wood Reviver is biologically degradable. The substances used comply with the demands of European standards regarding decomposition of detergents/surfactans.

The principle of Osmo to manufacture and supply only products which are safe and environmentally friendly during production as well as for application resulted in the successful certification according to DIN EN ISO 9001:2000 (quality management) and DIN EN ISO 14001 (environmental management).

Die Fa. Osmo Holz und Color
ist zertifiziert nach DIN EN
ISO 9001:2000
(Qualitätsmanagement) sowie
nach DIN EN ISO 14001
(Umweltmanagement).

Uses

Osmo Wood Reviver is a highly effective special product to refresh and clean exterior woodwork affected by sun and weather. Especially recommended for wooden decks, terraces and similar surfaces.

The product can also be used to remove heavy stains from minerals (e. g. natural stone). The subsoil should be checked beforehand!

Colour shade

6607clear

Can sizes

5 L , 1 L

Preparation

Avoid direct contact with metallic elements and plants (cover). Remove growth and loose dirt from the wood by well-sweeping. Occasional green growth can be removed with Osmo Gard Clean.

Method of application

Use Osmo Wood Reviver pure or mixed with water (up to 1:5 according to the greying grade). Wet the clean and unfrozen wood surface with water. Then apply Osmo Wood Reviver and brush it into the wood along the wood grain with a hard scrubbing brush. Leave for 15 minutes to work in. Remove loose greying layer with a hard brush and a lot of water.

Clean tools with water.

After thorough drying protect the refreshed wood with a coat of Osmo.

Recommendation: For this purpose we recommend in accordance to the area of application and the desired colour shade:

- clear, no UV-protection: Osmo Clear Oil Wood Finish or Osmo Teak-Oil
- transparent: Osmo Wood Oils, One Coat Only, Fence And Garden Stain or Wood Stain
- opaque: Osmo Country Colour or Opaque Gloss Wood Stain.

Exterior surfaces treated with pigmented colours should be finished with a clear coat.

Storage

Can be stored up to 5 years or more if can is tightly closed. Keep away from frost and heat (5-35°C), also when in transit.

Ingredients

Osmo Wood Reviver contains biodegradable oxal acid. The product contains neither solvents, PCP, PCB, formaldehyde, nor chlorine combinations or amino compounds.

Caution

When using this special cleaner appropriate protective clothes as well as gloves and protective glasses are recommended (splashes could bleach the fabric). Avoid all contact with skin. Wash splashes from skin or eyes immediately with a lot of water. In case of unease please consult physician and show this information. Keep away from children. Do not fill into containers normally used for food and drink. Keep away from food stuff, beverages and animal food.
